An industrial experienced and detail oriented employee prepared for real world obstacles. Determined learner with a collaborative mindset. Composed of fine communication, management and observation skills. Possesses comprehensive knowledge in the field of Data Science and Analytics and has worked on applied data science projects. A team player and adaptable to any kind of work environments. Strongly believes that curiosity , clarity, accountability, altruism and conscientiousness stand me out from others.

SKILLS / TOOLS

EDUCATION

2015 - 2019	Bachelors in Computer Science and Engineering 88.3% SRM Institute of Science and Technology The liberty to choose the curriculum subjects at the University, helped me in laying down a path from the very beginning. Choosing subjects such as Big Data, Data Mining and Analytics, Machine Learning, Artificial Intelligence etc. have helped me in forming a bigger picture. Apart from the academics, the student clubs and events taught me vital skills like leadership, team work, public relations and time management.
2013 - 2015	12th Grade (CBSE board) 91.4% MP & EV English Medium School Took coaching for IIT, JEE Mains & CBSE board exams simultaneously. I was selected into the special 15 batch of students, where we were trained different from the rest. These two years of my life taught me that hard work and dedication are the only keys to success.
2012 - 2013	10th Grade (ICSE board) 83.7% De Paul School I was part of many co-curricular and extra curricular events during my schooling. I was elected as the school captain by my fellow students and teachers. I took part in various competitions like debate, dance, art, drama etc. I was also part of the ICSQCC and secured 3rd position in 2013 by representing Andhra Pradesh.

WORK EXPERIENCE

2018 June - Aug	Data Science Intern Merilytics Acquired hands on experience on real world analytical problems. Worked on client projects on both SQL and NO-SQL databases. Developed Industrial Classifier as part of an internal project. Automated Builds using Jenkins and Docker. I was offered a PPO based on my performance as a Data Scientist.
2017 June - July	Application Developer Intern AxiomIO Worked on a project named "Paradox Box", a windows application for an US based client company. It's an application that is used for encryption & decryption of data/files for sharing. Developed using Visual Studio and programmed in C# and WPF.

HOBBIES

- Gaming

TESTIMONIAL

" Snehit is undoubtedly my favorite student in SRM. He is an enthusiastic learner and he has always been a motivation for his fellow students. I can bet on him that he will always perform his best in whatever he does. I wish him good luck for all his future endeavours."

- Mr. R. Srinivasan
(Faculty incharge, SRM)
